

The image features a close-up, high-angle view of a teal-colored fabric with a fine, grid-like texture. The fabric is draped, creating soft folds and shadows that emphasize its tactile quality. In the upper left quadrant, the Giotex logo is displayed in white. The logo consists of a stylized 'G' inside a circular arrow, followed by the word 'GIOTEX' in a bold, uppercase, sans-serif font.

GIOTEX

SUSTAINABLE WEAR

We are one of the most important companies in the Americas regarding production of sustainable textiles. By recycling cotton and polyester from plastic bottles, we manufacture premium textiles, that allow us to save water, reduce our carbon footprint and prevent plastic and textile waste from ending up in the ocean and landfills.

By producing around 500 tons of yarn per month, we've been able to attract and maintain a broad portfolio of clients who, like us, are committed to take care of the environment.

YUCATÁN
MÉXICO

OUR LAND, OUR HOME

From Yucatan, Mexico, we work with qualified human capital, top technology, continuous investment and a avant-garde philosophy, which seeks continuous improvement, the development of new products and expansion to other latitudes.

GLOBAL RECYCLED STANDARD

Certified traceability and sustainable origin of raw materials + environmental and social responsible process.

The certification allows us to support the quality of our company, offering the traceability of each product and the guarantee that our processes are chemical-free and have a low environmental impact.

—

50 YEARS
OF EXPERIENCE

LEGACY

50 years of experience, quality and service, have allowed us to expand our borders to 13 countries, fostering a change in the thought of the textile and fashion industry, to produce with our commercial partners, sustainable, comfortable and high quality garments, with the vision of generating a positive impact on a global scale, both in the environment and in society.
